

Limerick 2023: Second meeting of the project partners

The representatives of members of the European project Erasmus + Digital TA (2022-25) held a meeting in Ireland at the University of Limerick (UL), from 6 to 9 of June 2023. The participants exchanged experiences about working on the project, listened to lectures given by invited key speakers, and planned the development of the pilot test that will begin in September 2023.

First steps towards the development of the digital platform – a pilot test

Partners continue their work on the implementation of the first pilot test during which newly qualified in-service primary and secondary school teachers will assess the first version of the digital platform.

Where are we now?

Before we start the next phase, a survey will be carried out in September among novice teachers in Poland and Spain. It will indicate what needs teachers have at the beginning of their career and will help us to adjust the virtual platform to these needs.

The next meeting of the project members will take place in mid-November 2023 in Antwerp (Belgium).
